Still wasting budget on manual data entry??

Kick your TIA productivity into overdrive with TIA Helper!

TIA Helper automatically imports intersection volumes from Major Traffic Models and Excel into your CAD exhibits, resulting in:

- ◆ Error-free traffic volume exhibits, every time
- ◆ Produce volume exhibits in minutes, not hours
- ◆ No manual transcription of traffic volumes from printouts
- ◆ Update your exhibits with new volumes in seconds
- ◆ Dramatically improve your TIA bottom line
- ◆ No more embarrassing typos in your volume exhibits
- ◆ Make the traffic analysis process more enjoyable
- ◆ Leave office on time (when was the last time you did that?)

Win a free TIAH license! Details at TIAHELPER.COM

TIAH users are ecstatic about the benefits:

"TIAHelper cuts the time to prepare report figures in half!"
"TIAH eliminates time consuming errors when preparing report figures."
"TIAH is the best thing since sliced bread. Once we complete the initial figure setup to input the turning movement volumes, with TIAH, the entire process to upload volumes for TRAFFIX to AutoCAD is less than 5 minutes... With NO mistakes. And, it is a great tool just to review overall traffic assignment volumes in an intersection format! Extraordinary product!"

TIA Helper is used by such prominent transportation consultants as: A.T.E.P., Inc.; David Evans and Assoc., Inc.; DeShazo, Tang & Assoc., Inc.; Hexagon Transportation Consultants, Inc.; Kimley-Horn and Assoc., Inc.; Linscott, Law & Greenspan Engineers; Olsson Assoc.; Pape-Dawson Engineers, Inc.; Peters Engineering Group; Project Engineering Consultants, Ltd; Trabue, Hansen and Hinshaw, Inc.; Traffic Engineers, Inc.; Urbitran Assoc., Inc.; Wood Rodgers, Inc.; Y.S. Mantri & Assoc., LLC; and numerous others.
